MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Special Clearances for Congressional
Staff Members

A check of our records reveals that we have signed up only two staff employees of individual Members of Congress for compartmented information: Bill Spell, on Senator Stennis' staff, and Bill Lewis, on Senator Margaret Chase Smith's staff. I think we can easily justify these exceptions to our policy--Spell because he works for our Subcommittee Chairman and Lewis because he works for Senator Smith who at the time was the senior Republican member of our Subcommittee.
